InterQual Cloud Solutions schedule

The following software release and system maintenance schedule applies to these InterQual Cloud solutions:

- InterQual® Connect Medical Review Service
- InterQual® Anonymous Review
- InterQual® Transparency
- InterQual® Online
- InterQual® Mobile

Month	Maintenance	Software release (prod & non-prod)	Software release (non-prod only)
October 2024	Friday, Oct 4	Thursday, Oct 10	Thursday, Oct 24
November 2024	Friday, Nov 1	Thursday, Nov 7	Thursday, Nov 21
December 2024	Friday, Dec 6	Thursday, Dec 12	—————
January 2025	Friday, Jan 10	Thursday, Jan 9	Thursday, Jan 23
February 2025	Friday, Feb 7	Thursday, Feb 6	Thursday, Feb 20
March 2025	Friday, Mar 7	Thursday, Mar 13	Thursday, Mar 27

Content releases are deployed on the morning of the content release dates listed above and are available for use by 6 a.m. ET. Your organization's system settings determine if the criteria are automatically enabled or disabled for reviewers. Your Site Manager can use the Administration module to enable or disable the criteria on demand.

Software releases are deployed once per month to the production environment and twice per month to the non-prod (integ) environment. Deployments occur between 11 p.m. ET on the software release dates listed above and 2 a.m. ET the following morning (3 hours). Releases are first deployed to the non-prod environment, followed by the production environment on the next scheduled production release date.

Maintenance windows are reserved from 11 p.m. ET on the maintenance dates listed above until 2 a.m. ET the following morning (3 hours) for routine patching and other system updates.

Content releases, software releases, and maintenance activities can be assumed not to require downtime or significantly impact user access unless communicated otherwise through the Optum Solution Status notification process.
