

InterQual® Acute Adult Criteria

InterQual® 2024 December release clinical revisions

Release date: December 6, 2024

Global revisions

Revision
summary

This release includes updates to Decision Reasons in all subsets. To further support patient education, new details are provided to clarify the difference between observation and inpatient status. Additionally, statements were added to support that the review outcome is determined based on the care provided at the level of care requested and not determined by the need for the patient to receive hospital level services or the quality of care provided. To support usability, this information was moved to a new and separate Principal Reason/Clinical Reason which should be selected in addition to the reasons appropriate to the clinical documentation provided.

Acute Adult

Description of changes	Subsets
Updates to Decision Reasons content	All subsets

Review and incorporation of recent medical literature

Optum, Inc. is committed to keeping the InterQual product suite current and accurate. Criteria are continually reviewed and updated, with new editions of every product released at least annually. Optum's staff of physicians, nurses, other licensed healthcare professionals, and its extensive array of primary care and specialty consultants participate in ongoing criteria revision as new medical information emerges. Each release of the criteria reflects a thorough review of new medical literature, society guidelines, current practice standards, and incorporation of expert clinical consultant and user feedback.

Additional resources

InterQual® Resource Center

The [InterQual Resource Center](#) is a central location for the most up-to-date InterQual clinical documentation and resources.

The Resource Center provides access to:

- What's New—Includes release highlights for each of the InterQual® Criteria modules included in a content release.
- Clinical Revisions—Includes the clinical revisions for the current InterQual Criteria year and two years prior.
- Clinical Resources—Includes information such as the Knowledge Articles, the Known Issues List, and more.
- Webinars—Includes the Increase Your IQ educational webinar recordings.
- Additional Resources—Includes access to resources such as Customer Care Hub, the InterQual® Learning Source, and Download Connect.

Accessing Customer Care Hub

[Customer Care Hub](#) is a web portal that enables you to submit, update, and view support case details and status.

To obtain a user ID and password, from the Customer Care Hub Welcome page, select Register.

Proprietary notice

General terms:

Optum Inc., and/or one of its subsidiaries (“**Optum**”) is the owner/licensor of InterQual® Criteria Modules (the “**Clinical Content**” or the “**Work**”). Optum has prepared this Work for exclusive use of its licensees of software applications embodying the Clinical Content. This Work contains confidential and trade secret information of Optum and is provided to licensees who have an existing license agreement in force only under the time-limited license as provided under that license agreement. Licensee and any recipient shall use the Work in accordance with the terms and conditions of the license agreement.

Proprietary notice:

The Work is protected under United States and international copyright and other intellectual property laws. If this Work is delivered pursuant to a federal government contract that requires the conveyance of rights in data to the government, it is understood that the Work, including commercial software, clinical content, third-party software, documentation and/or other technical data, was developed exclusively at Optum's private expense, and that Optum will convey only limited or restricted rights in the Work to the government consistent with the guidance set forth in the Federal Acquisition Regulation (“FAR”) and/or FAR Supplements. Conveyance of any additional rights beyond limited or restricted rights in the Work requires Optum's express consent contained in a separate written agreement.

© 2013-2024 Optum, Inc. and/or one of its subsidiaries. All rights reserved.

Acknowledgments and disclaimer:

The Clinical Content is developed by Optum's clinical research staff which includes physicians, registered nurses, and other healthcare professionals. Many of Optum's clinical staff hold advanced degrees and case management certification. The Clinical Content is reviewed and validated by a national panel of clinicians and medical experts, including those in community and academic practice settings, as well as within the managed care industry throughout the United States. The Clinical Content is a synthesis of evidence-based standards of care, current practices, and consensus from licensed specialists and/or primary care physicians.

The Clinical Content reflects clinical interpretations and analyses and cannot alone either resolve medical ambiguities of particular situations or provide the sole basis for definitive decisions. The Clinical Content is intended solely for use as screening guidelines with respect to the medical appropriateness of healthcare services and not for final clinical or payment determinations concerning the type or level of medical care provided, or proposed to be provided, to a patient.

THE WORK IS PROVIDED “AS IS.” OPTUM DISCLAIMS ANY OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING AS TO MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE OR SERVICE OF THE WORK, OR THE COMPATIBILITY OF OUTPUT USING THE WORK WITH ANY LAW, REGULATION, OR ORDER. IN NO EVENT SHALL OPTUM BE LIABLE FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES IN CONNECTION WITH, OR ARISING OUT OF, ANY USE OF THE WORK.
