

Your care plan - Organ transplant

Your care plan will help you manage your care after the organ transplant. You have 3 main goals.

1. Learn about your transplant.

- What is it?
- What can this mean for me over time?
- What types of care do I need?
- What follow-up care do I need?
- What can I do?
- Where can I learn more?

2. Keep healthy after your transplant.

- Learn the signs that your condition is getting worse.
- Learn when and where to get help.
- Make a plan with your doctor on what to do if you have any problems.

3. Learn how to take care of yourself.

- Follow your self-care plan.
- Take your medicine as your doctor told you.
- Do health checks at home.
- Follow a healthy eating plan.
- Take steps for a healthy lifestyle.
- Make and keep all doctor visits.

To help you meet your goals, read these handouts.
