Assessment

Q1. Patient: What type of urinary catheter do you use? (Check all that apply.)

- Straight catheter [Q2] [Q3]
- Indwelling (Foley) [Q2] [Q3] [Q4]
- Suprapubic [Q2] [Q3] [Q4]
- Other, specify: _____ [Q2] [Q3] [Q4]
- Unknown

Q2. Patient: Why do you have a urinary catheter? (Check all that apply.)

- Recent surgery, specify: _____
- Mobility impairments Activities of Daily Living [CCG](#)
- Neurologic problem
- Pressure injury Pressure Injury Monitoring and Management [CCG](#)
- Other, specify: _____
- Unknown [P1]
- Not applicable
- Not all appropriate reasons for needing catheter understood [P1]

Q3. Patient: Who takes care of your catheter? (Check all that apply.)

- I do (self).
- Friend or relative (unpaid caregiver)
- Paid caregiver
- Home care agency, name and phone number: _____
- No one takes care of it at home; I go out to a doctor or nurse.
- Unknown
- Not applicable

Q4. Patient: When was the last time your catheter was changed?

- 3 months or more ago [P1]
- 1 to 2 months ago [P1]
- In the past month
- Never [P1]
- Unknown [P1]
- Not applicable

Q5. Patient: Are you having any problems with your catheter? (Check all that apply.)

- Cannot afford supplies [P1] Financial Status and Benefits [CCG](#)
- Skin irritation [P1] Wound Management [CCG](#)
- Trouble getting supplies [P1] Community Resources [CCG](#)
- Trouble inserting the catheter [P1]
- Trouble keeping the catheter clean [P1]
- Urine infections [P1]
- Other, specify: _____ [P1]
- None
- Unknown [P1]

Plan of Care

Problems

P1. Urinary catheter self-care information needed

- **Goal:** Urinary catheter self-care plan followed
 - **Interventions:**
 - **ASSIST:** Identifying patient's goal priorities, willingness/ability to achieve goals, and preferences for communication and follow-up
 - **ASSIST:** Goal setting that is specific, measurable, achievable, relevant, and with target completion time (eg, short/long-term, prioritized)
 - **ASSIST:** Appointment scheduling
 - **ASSIST:** Self-care plan creation between patient and provider (eg, goals, management, treating symptoms, getting help)
 - **ASSIST:** Identifying ways to manage catheter needs in day-to-day life (eg, managing catheter outside the home)
 - **EDUCATE:** Catheter care(1)(2):
 - Practice good hygiene, with cleaning of catheter and around perineal skin.
 - Measure urine and keep diary.
 - Use clean collection bag every day.
 - Keep catheter from being pulled.
 - Privacy management (hiding catheter, managing straight catheter when away from home)
 - Straight (intermittent) catheterization every 3 to 5 hours if patient dependent on catheterization to void
 - Suprapubic catheter care, if indicated
 - Bladder retraining after indwelling catheterization
 - Urinary catheterization can cause urinary tract infections, particularly with indwelling catheters.
 - **EDUCATE:** Catheter change schedule(3):
 - Indwelling catheters: replace if leaking, blocked, or encrusted. Routine or scheduled changes are not recommended.
 - Straight or condom catheters: replace per manufacturer's instructions.
 - **EDUCATE: When to get emergency help(4):**
 - Urine pattern change, sudden (eg, not making urine)
 - Abdominal pain, severe, unrelieved by analgesics
 - Bladder overdistended (eg, pounding headache, sweating for no reason, cold hands or feet, feeling anxious)
 - **EDUCATE: When to call the provider(5):**
 - Bowel or bladder dysfunction
 - Catheter insertion problems
 - Urinary problems (eg, pain, frequency change, blood)(1)
 - Urinary retention after catheter removal(3)
 - Urine problems (eg, cloudy, dark yellow, or brown)
 - Urine stones
 - **COORDINATE:** Laboratory testing, if indicated
 - **COORDINATE:** Outpatient imaging, tests, or procedures, if indicated
 - **COORDINATE:** Medical equipment and supplies, if indicated
 - **COORDINATE:** Home care referral, if indicated
 - **COORDINATE:** Community services referral, as needed
 - **COORDINATE:** Social worker referral, as needed(6)
 - **COORDINATE:** Urologist referral, if indicated
 - **COORDINATE:** Communication between care team members and care plan reconciliation(7)(8)(9)
 - **COORDINATE:** Follow-up evaluation of catheter, referral status, and need for further assistance(10)(11)
 - **SEND:** How to wash your hands (Illustrated)  (Spanish)
 - **SEND:** Tips for self-catheterization  (Spanish)
 - **SEND:** How to use and care for a Foley catheter (Illustrated)  (Spanish)
 - **SEND:** Tips for using an indwelling catheter  (Spanish)
 - **SEND:** How to self-catheterize for a female anatomy (Illustrated)  (Spanish)
 - **SEND:** How to self-catheterize for a male anatomy (Illustrated)  (Spanish)
 - **SEND:** How to use a condom catheter (Illustrated)  (Spanish)
 - **SEND:** Suprapubic catheter care - Stoma care (Illustrated)  (Spanish)
 - **SEND:** Suprapubic catheter care - Urine bag care (Illustrated)  (Spanish)
- **Goal:** Urinary tract problems prevented
 - **Interventions:**

- **ASSIST:** Identifying patient's goal priorities, willingness/ability to achieve goals, and preferences for communication and follow-up
- **ASSIST:** Goal setting that is specific, measurable, achievable, relevant, and with target completion time (eg, short/long-term, prioritized)
- **ASSIST:** Appointment scheduling
- **EDUCATE:** Urinary tract infection prevention measures(1)(2):
 - Proper hand hygiene
 - Proper external skin hygiene
 - Keep catheter and tubing from kinking.
 - Keep bag below level of bladder.
 - Empty bag regularly.
 - Drink 8 to 12 cups (1.9 to 2.9 L) of fluid per day.(12)
- **EDUCATE:** Bladder care measures(2):
 - Prevent bladder from becoming overdistended (generally less than 400 mL).
 - Maintain steady fluid intake (within dietary limits).
- **COORDINATE:** Medical equipment and supplies, if indicated
- **COORDINATE:** Home care referral, if indicated
- **COORDINATE:** Follow-up evaluation of catheter, referral status, and need for further assistance(10)(11)
- **SEND:** How to wash your hands (Illustrated)  (Spanish)
- **SEND:** Tips for self-catheterization  (Spanish)
- **SEND:** How to use and care for a Foley catheter (Illustrated)  (Spanish)
- **SEND:** Tips for using an indwelling catheter  (Spanish)
- **SEND:** How to use a condom catheter (Illustrated)  (Spanish)
- **SEND:** Suprapubic catheter care - Stoma care (Illustrated)  (Spanish)
- **SEND:** Suprapubic catheter care - Urine bag care (Illustrated)  (Spanish)
